Do you remember that Godzilla® had a little son? Minilla™ is his name. He has been kidnapped by horrible monsters and confined to a great labyrinth called Matrix, which is overrun by powerful monsters. Can Godzilla® rescue his son?

## 1. HOW TO PLAY

The game is played with a 64-scene Matrix labyrinth, having eight scenes vertical and eight horizontal. Minilla<sup>TM</sup> is in one of the scenes. You, Godzilla<sup>®</sup>, must battle your way through each scene until finding Minilla<sup>TM</sup>.

First, destroy all the rocks in a scene within a fixed span of time. Then you will see arrows on the screen. They indicate passages to the next scene. If Godzilla<sup>®</sup> crosses one of the arrows, you will be in the scene the arrow indicates.

Let's say you play Scene 5. If Godzilla<sup>®</sup> destroys all the rocks in the same scene and passes over ↓, you will be in Scene 13, as shown in Example 1.

In case you fail to destroy all the rocks in a scene within a fixed length of the time, Ghidrah<sup>TM</sup> will appear. Ghidrah<sup>TM</sup> is invincible. So be sure to destroy all the rocks before Ghidrah<sup>TM</sup> appears.

To check what scene you are playing, you can see the entire plan of the 64-scene Matrix during your game. The plan shows the route you have followed and the scenes you have cleared. For details, see Page 4.

## HOW TO INPUT A PASSWORD

To input a password, first select CONTINUE (Example 3), then either PASSWORD 4 or PASSWORD 18.

Next, on the upper part of the screen, where rows of letters are shown, use the Control Pad  $\oplus$  to move  $\blacktriangle$  left and right, up and down, to the letter you wish to input, and press the Button B. The letter selected will appear in the lower part of the screen. Repeat the operation, and after you input the password, move  $\blacktriangle$  to END and press the Button B.

If a wrong password is input and END is selected, WRONG PASSWORD will appear on the screen. In this case, input the correct password following the same procedure. Should any letter of the input password be wrong, move  $\blacktriangle$  to  $\blacklozenge$  or  $\blacktriangleright$  and press the Button B so the wrong letter starts blinking. ## 4. GAME SCREEN

**LIFE:** Life parameter that indicates Godzilla's life energy.

**G:** Number of Godzillas remaining.

**S:** Your current score.

**ROCK:** The rock moves when Godzilla punches it. But when the rock stands close to (fronting on) the edge of the scene, Godzilla can destroy instead of moving it.

**PITFALL:** If you place the rock there, then the rock falls. But Godzilla can walk over the spot.

**NEEDLE:** Godzilla plus his any enemy monsters will die if falling onto the needle.

**LADDER:** Godzilla and enemy monsters can climb up/down the ladder.

## 5. HOW TO DEFEAT ENEMY MONSTERS

Godzilla<sup>®</sup> can destroy enemy monsters by punching them or clouting them with the rock.

Enemy monsters tend to approach Godzilla<sup>®</sup>. So Godzilla<sup>®</sup> can destroy them by luring them into the needle.

Godzilla<sup>®</sup>'s life energy will decrease bit by bit whenever he is touched by enemy monsters. He will die when it becomes zero.

When starting this game, you will have three Godzilla<sup>®</sup>s. The game ends when your final Godzilla<sup>®</sup> dies. When Godzilla<sup>®</sup> clears one scene, another Godzilla<sup>®</sup> is added.
